PROFESSIONAL SUMMARY

Senior Python Developer and Machine Learning Engineer with 6 years of experience building scalable backend systems and production ML pipelines. Expert in Python, Django, FastAPI, PyTorch, TensorFlow, and cloud infrastructure (AWS, Docker, Kubernetes). Passionate about NLP, data engineering, and delivering measurable business impact through AI-driven solutions.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, Bash, R
Frameworks: Django, FastAPI, Flask, React, Node.js
ML / AI: PyTorch, TensorFlow, scikit-learn, Hugging Face Transformers, NLP, LangChain, computer vision
Databases: PostgreSQL, MongoDB, Redis, Elasticsearch
Data Eng.: Apache Kafka, Apache Airflow, dbt, Spark
DevOps: Docker, Kubernetes, Terraform, GitHub Actions, CI/CD, AWS (EC2, S3, Lambda, SageMaker), GCP
Other: REST API, GraphQL, Git, Agile, Scrum, system design, microservices architecture

WORK EXPERIENCE

Senior Machine Learning Engineer - Stripe, San Francisco, CA
January 2022 - Present

- Designed and deployed NLP-based fraud detection models, reducing false positives by 34%.
- Built real-time ML inference pipelines using Apache Kafka and FastAPI, serving 50 M requests/day.
- Led migration from monolith to microservices on Kubernetes (AWS EKS), cutting deploy time by 60%.
- Introduced MLOps best practices (MLflow, model versioning) and mentored 4 junior engineers.

Python Backend Developer - Airbnb, San Francisco, CA
June 2019 - December 2021

- Developed Django REST APIs consumed by 8 million monthly active users.
- Optimised PostgreSQL queries and introduced Redis caching, reducing API latency by 45%.
- Implemented CI/CD pipelines with GitHub Actions and Docker, achieving 99.9% uptime.
- Integrated third-party payment and identity verification APIs (Stripe, Twilio).

Junior Software Engineer - DataRobot, Boston, MA
August 2018 - May 2019

- Built internal data-quality dashboards using Flask and Plotly.
- Wrote unit and integration tests with pytest, achieving 90%+ code coverage.

EDUCATION

M.Sc. Computer Science (Machine Learning) - Stanford University
2016 - 2018 | GPA: 3.9 / 4.0

B.Sc. Computer Engineering - UC Berkeley
2012 - 2016 | Summa Cum Laude

NOTABLE PROJECTS

ResumeIQ (Open Source) - github.com/sarahchen/resumeiq

- NLP resume screening tool built with spaCy, scikit-learn, and Streamlit. 1.2k GitHub stars.

SentimentStream

- Real-time social media sentiment analysis using PyTorch Transformers, Kafka, and PostgreSQL.

CERTIFICATIONS

- AWS Certified Solutions Architect - Professional (2023)
- Google Professional Machine Learning Engineer (2022)
- Certified Kubernetes Administrator - CKA (2021)
